

EUGENE EJIKE CHIBUIKE

WEB DEVELOPER | FULL-STACK DEVELOPMENT

Abuja, Nigeria • +234 811 215 3223 • eugeneejike51@gmail.com

LinkedIn: <https://ng.linkedin.com/in/eugene-ejike-687b813a8>

PROFESSIONAL SUMMARY

Web developer focused on building responsive, user-friendly and production-ready web applications. Experienced across frontend and backend development with React, JavaScript, Tailwind CSS, Node.js, Express and MongoDB. I enjoy turning ideas into clean digital products and improving them through real-world projects.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, React, Bootstrap, Tailwind CSS, responsive UI/UX
- Backend: Node.js, Express.js, REST APIs, authentication and server-side application logic
- Database & Services: MongoDB, Cloudinary, Paystack/Flutterwave integrations, environment configuration
- Tools: Git, GitHub, VS Code, NPM, Vercel, Render
- Currently exploring: TypeScript and deeper full-stack architecture

SELECTED PROJECTS

CodeCraft — Skills-Learning Platform

Built and deployed a learning platform covering Tech, AI, Content Creation, Design/UX, Business/Marketing and more. Implemented course/bundle flows, instructor functionality, support/community features and paid-course architecture. Frontend: React/Tailwind; backend: Node.js/Express; database: MongoDB.

StoryXverse — Interactive Storytelling Platform

Developed a full-stack storytelling platform centered on interactive, choice-based stories, characters, worlds, creator publishing and an SVP Wallet/reward ecosystem. Designed the product architecture around scalable user, story, publishing and reward flows.

EugeneCrafts Portfolio

Designed and developed a personal portfolio to present web-development skills, selected projects and professional profile, with responsive layouts and mobile-friendly navigation.

Other Projects

Built practical projects including a Todo App, Quiz App, Calculator App, Music Playlist UI and a clothing-business website to strengthen frontend and application-development skills.

EXPERIENCE

Independent / Freelance Web Developer | 2026 – Present

- Plan, design and develop responsive websites and full-stack web applications from idea to deployment.
- Build reusable frontend components and connect them to backend APIs and MongoDB data services.
- Use Git/GitHub for version control and deploy applications using modern hosting platforms.
- Continuously test, debug and improve applications based on real user and project requirements.

EDUCATION

Federal University of Technology, Minna (FUT Minna) | B.Tech. Computer Science

Computer Science student with strong interest in web development, software engineering and practical product development.

CORE STRENGTHS

- Problem solving
- Fast learning
- Communication & teamwork
- Critical thinking
- Attention to detail

- Project ownership
